INTRODUCTION

Antaira's **LMX-0501G-SFP series** is a 5-port industrial gigabit managed Ethernet switch that is embedded with four gigabit Ethernet ports and one dual rate (100/1000) SFP slots for fiber connection. This series is a fully manageable industrial Ethernet switch pre-loaded with standard Layer 2 network management software and supports a user-friendly web console interface for easy configuration.

LMX-0501G-SFP series is IP30 rated, DIN-rail mountable, and has two wide operating temperature models for either a standard temperature range (STD: -10°C to 70°C) or an extended temperature range (EOT: -40°C to 75°C). It also provides high EFT and ESD protection for any industrial networking application within factory automation, ITS, power/utility, water wastewater, and any other outdoor or harsh environment.
