

CAT6A UTP Keystone Jack Tool free

Description

Category 6_A Unscreened UTP tool free RJ-45 keystone jacks exceed the transmission line performance requirements of IEC and TIA for CLASS EA/Category 6_A systems. Their compact design has been engineered to optimize density in high performance applications such as Data Centres. Designed for mechanical and electrical reliability, using quality materials, to deliver a jack solution that minimizes the time required by the installer to complete each termination. Each Category 6_A Unscreened UTP RJ-45 keystone jacks comply CLASS EA networks, as defined within ISO/IEC 11801 (2nd Edition):2010 including 10GBASE-T (10 Gigabit Ethernet), 2G FCBASE-T, 4G FCBASE-T and 1000BASE-T (Gigabit Ethernet).

Features and Benefits

- Repeatable tool-free terminations
- Colour coded stuffer-cap for easy cable lacing
- Low insertion force `clam action` assists tool-free termination. (LSA & 110 punch-down tools can also be used to effect termination)
- Interoperable and backwards compatible
- Keyed stuffer-cap for reliable termination
- Durability:
 - Jack contacts: 750 plug insertion cycles minimum
 - 50µm Gold plated connection pins
 - Wiring block: 250 termination cycles minimum

- Fits all keystone style face plates and floor boxes
- Suitable for modular patch panel installation
- Integral cable strain relief

Specifications

- Electrically compliant through 500MHz
- Class EA/category 6A standards compliant
- Supports TIA 568A & B wiring configurations
- REACH / SvHC compliant regulation (EC) No. 1907/2006
- Compliant with Standards:
 - ANSI/TIA/EIA-568-C.2. (or D)
 - IEC60603-7
 - IEEE 802.3 ab

Ordering Information

Description	Part No.
AFL Hyperscale® CAT6A UTP Keystone Jack Tool free White 50µm gold plated	UCT215211
AFL Hyperscale® CAT6A UTP Keystone Jack Tool free Black 50µm gold plated	UCT215221

*Note: If the part number you previously had is not shown please contact the customer service team.
