Cletop Cassette Cleaner Series

Item Description

The Cletop connector cleaner is a rugged palm-sized cleaner that offers exceptional performance with a proven track record. The choice of many leading manufacturers and telecom carries worldwide for nearly 20 years, Cletop is a name you can rely on.

Why cleaning fibre optic connectors is essential

- Pits and scratches are often caused by dirt
- Dust, dirt, oils, etc. are everywhere and will migrate to exposed connector end-faces
- Dirty connectors attenuate signal levels and can increase digital bit error rates
- Always clean both connectors when mating / unmating to avoid contamination transfer

Features/Benefits

- Compact and lightweight design is ideal for use in laboratories, assembly lines, or in the field
- Consistent cleaning results without IPA alcohol, which is toxic, flammable, and leaves a residue on fibre ends (white haze)
- Excellent anti-static properties for static sensitive applications and to minimize reattachment of dust to ferrule after cleaning
- Simple push button shutter operation exposes cleaning tape only when in use – minimizing unwanted dust
- Replaceable and cost effective cleaning tape
- Over 400 wipes per tape

Applications

- **Cletope Series Original** version (proven reliability)
- **Cletope -S Series** Second generation cleaner offering the same Cletope cleaning performance with “Drop-in” replacement tape cartridge and ergonomic design that works equally well for left or right handed operators
- **Type A and -SA** Designed for single 2.5mm ferrules (SC, FC, ST, & D4)
- **Type B and -SB** Cleans SC, SC2, FC, ST, DIN, D4, MU, LC, MT MPO/MTP® without pins, MT-RJ without pins
