2 Port DisplayPort 1.2 MST/SST Hub

No.: 38425

Description

- Connect 2 DisplayPort monitors to a single DisplayPort source
- Open applications on separate displays or across multiple monitors
- MST hub compatible with AMD Eyefinity and Intel Collage
- Supports resolutions up to 3840x2160@60Hz 4:4:4 8bit
- 2 Year Warranty

This DisplayPort MST & SST Hub enables the use of two console displays from a single DisplayPort equipped PC, perfect for creating two separate workspaces or a large workspace spanning two displays. Building on the functionality of a standard MST Hub the Hub also supports Single-Stream Transport technology enabling the Hub to be used like a traditional two port splitter, showing the same content on two displays.

The Hub offers female input and output ports providing the flexibility to use variable cable lengths to install the Hub discreetly and securely. Using a robust metal housing, with integrated mounting brackets and screw type DC connector, the Hub is ideally suited to commercial and industrial applications where reliable performance is essential.
