Customized products

Reimax offers production services for electric and electronic products and product development and manufacturing services for plastic technology.

Create your own cable product

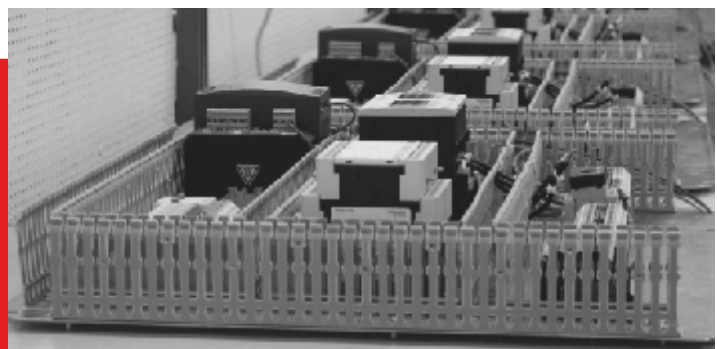

Our professional product development can design a custom-made product for your unique needs quickly and cost effectively. By using our wide connections we are able to solve even the most challenging demands. We also manufacture vermouldings and complex assemblies.

- 4 Horizontal moulding machines
- Compressive force 50-165t
- Engine capacity 120-286cm³
- 10 vertical moulding machines
- Applicable in overmoulding

Custom-marked cables

The colours of DrakaFlex Rainbow cable, enclosure and plug end for basic products can be freely chosen. The products can be modified as your own Brand Label product with custom-made logos. With these, your company logo can be placed in plastic mould or optionally text can be placed in the cable, when the text appears in the full length of cable in every half of meter. Additionally we manufacture custom-made harnesses from various cables, wires and connectors.

Customized products

Harnesses and Cables

Reimax manufactures customer specific harnesses and equipment cables. We have customers from wide range of industries in Finland and abroad. Our harness and equipment cable machinery is modern and versatile. The quality of handwork is ensured by continuous education, for example personal quality standard IPC620 class III.

Sensor Technology

Reimax manufactures also various custom specific sensors for example measuring temperature and humidity. Sensors can be moulded inside a resin or plastic mould or assembled in steel tube.

Electromechanical assembly

Reimax manufactures various part and equipment assemblies from small terminal blocks to demonstration cases and in-vehicle computers.

Cabinets

Reimax designs and manufactures FI- certified electrical distribution and automation cabinets for building construction and industry use. We also design and produce programmed KNX-centers.

Cables

Reimax Electronics – extension cords are developed for the needs of professionals and perform reliably in extreme conditions. Manufacturing materials and components are selected to withstand the northern climate as well as the chemical and mechanical stress appearing in industry and construction sites.

VSKB i.e. A05RN-F

Extremely flexible weather and oil proof cable for installation of light and portable devices/equipments. Suitable for light mechanical stress. Suitable for continuous external use.
Temperature resistance -35 °C... +60 °C

VSF i.e. H07RN-F

Flexible weather and oil proof cable for medium mechanical and chemical stress in dry, moist, wet and flammable indoor and outdoor areas as well as in explosive atmosphere. Thicker isolation layer than in VSKB cable. Self-extinguishing.
Temperature resistance -35 °C... +60 °C

VSF-TARMO (VSF-T) i.e. H07RN-F / H07BB-F / H07BN4-F

Weather and oil proof cable for medium mechanical and chemical stress in dry, moist, wet and flammable indoor and outdoor areas as well as in explosive atmosphere. Halogen-free. Flexible up to -50 °C.
Temperature resistance -50 °C... +60 °C (in special use up to ...+90 °C).

PUR i.e. H07BQ-F

Oil proof cable. Resist extreme mechanical and chemical stress. Ideal cable if in touch with oil, sharp edges or coarse surfaces. Does not leave a trace on finished surfaces, as rubber cable might do.
Temperature resistance -50 °C... +60 °C (in special use up to ...+90 °C).

MSK i.e. H05VV-F

PVC-cable, internal use only (not frost resistant).
