

Navilock Padlock with fingerprint 75 x 45 x 13 mm silver

Description

This padlock by Navilock with **practical fingerprint sensor** offers personalised security in many areas. Whether it's the locker in the fitness centre, a plot in the cellar or the door of a tool shed, the range of applications is versatile.

Up to 10 different fingerprints

The sensor in the lock **stores a total of 10 different fingerprints**. The personalised fingerprints make it impossible to lose keys or forget the code.

Battery capacity

When the battery is fully charged, the lock can be used for up to **6 months or 1000 times**. Before it is time to recharge the battery, the lock indicates this by flashing red.

Protection class IP64

The **IP64 protection class** offers increased protection against dust and splashing water from all sides.

Note

If the lock is completely discharged, it can be recharged using a power bank or cable so that it can be used again.
