

Micro Sticks

Micro fiber sticks are the ideal consumable for cleaning 1.25mm bulkheads after installation. They can be used to clean the end faces of installed connectors, from inside the enclosure. Cleaning is achieved by inserting the micro fiber tip inside the adapter's aperture and twisting once. The micro fiber material allows the user to clean installed connector end faces without scratching the surface, and ensures a perfect clean first time.

FEATURES/BENEFITS

- Works with 1.25mm adapters: LC, MU
- Material: Micro fiber, antistatic
- Size: 10mm x 4mm (body) 13mm x 2mm (head)

ORDERING INFORMATION

DESCRIPTION	PART NO.
1.25mm Micro Fiber Sticks	CLEANSTICK
