

HOW DIRTY IS A CELL PHONE?

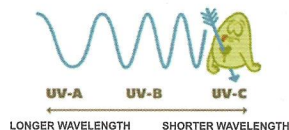

Our phones are filthy and it's not hard to see why.

We are constantly in contact with dirty surfaces all the while using our phones. All the germs we transfer to our phone don't just stay there, they breed there! We wash our hands, but never think twice about cleaning our phones. Have you ever used your phone in the bathroom? (Don't worry, we all have...) Then it shouldn't surprise you that 1 in 6 cell phones have fecal matter on them! Chemical cleaners and wipes can ruin your touch screen, but there is a better way.

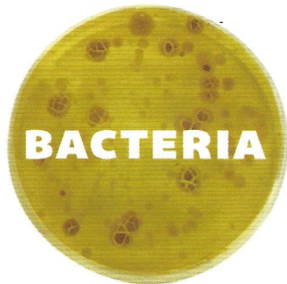

HOW DOES UV LIGHT CLEAN

UV-C LIGHT HAS A UNIQUE WAVELENGTH THAT IS DEADLY TO MICROORGANISMS. IT IS EFFECTIVE IN DESTROYING NUCLEIC ACIDS AND BREAKING APART GERM DNA. WITH THEIR DNA BROKEN, THEY CAN'T FUNCTION OR REPRODUCE AND THE ORGANISM DIES. IT HAS BEEN USED IN HOSPITALS FOR DISINFECTION SINCE 1903.

BEFORE

AFTER

SMUDGE FREE

WHILE PHONESOAP DOES AN EXCELLENT JOB OF KILLING ALL THE BACTERIA ON YOUR PHONE, IT DOESN'T PHYSICALLY REMOVE SMUDGES AND GRIME. THOSE SMUDGES WILL BE GERM FREE, BUT TO MAKE YOUR SCREEN SHINE LIKE NEW, MAKE SURE TO CHECK OUT OUR PHONESOAP POLISH (NOT INCLUDED).

PLEASE NOTE:

THE PROVIDED POWER ADAPTER & USB CABLE ARE USED TO POWER THE PHONESOAP. PLUG THE PROVIDED CABLE INTO THE PORT MARKED "WALL." USE MAY CHARGE YOUR PHONE BY PLUGGING IN YOUR PHONES CHARGING CABLE INTO THE PORT MARKED "PHONE."

INSTRUCTIONS

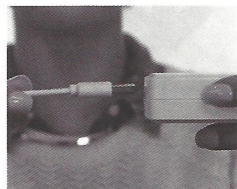

IF YOU FIND THAT YOUR PHONESOAP IS NOT WORKING PROPERLY OR IF YOU HAVE ANY TROUBLE GETTING THINGS SET UP, PLEASE CONTACT US VIA MESSAGE AT WWW.PHONESOAP.COM, VIA PHONE 855-313-7683, OR VIA EMAIL CS@PHONESOAP.COM

IN THE BOX

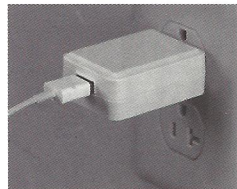

A. YOUR NEW PHONESOAP!

B. POWER ADAPTER TO CONNECT YOUR PHONESOAP TO THE POWER OUTLET ON YOUR WALL.

STEP 1

PLUG THE USB CABLE THAT CAME WITH YOUR PHONESOAP (C) INTO THE POWER ADAPTER (B)

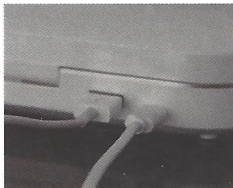

STEP 2

PLUG THE POWER ADAPTER INTO THE WALL SOCKET.

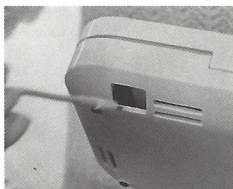

STEP 3

TAKE THE END OF THE USB CORD THAT IS NOT PLUGGED INTO THE WALL SOCKET (THIS WILL BE THE SMALL MICRO USB END) AND PLUG IT INTO THE BACK OF THE PHONESOAP AS PICTURED. NOW YOUR PHONESOAP IS POWERED UP AND READY TO GO!

STEP 4

IF YOU WANT TO CHARGE YOUR PHONE, PLUG YOUR PHONE'S CHARGING CABLE INTO THE USB PORT ON THE BACK OF THE PHONESOAP. *PLEASE NOTE THAT A CABLE FOR CHARGING YOUR PHONE IS NOT INCLUDED IN THE BOX. PHONESOAP IS DESIGNED TO WORK WITH A VARIETY OF PHONE CABLES.

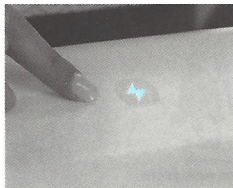

STEP 5

AFTER YOU PLUG YOUR PHONE CABLE INTO THE USB PORT ON THE BACK OF PHONESOAP, YOU CAN THREAD THE OTHER END THROUGH THE SLOT PICTURED HERE. (IPHONE 5 AND NEWER)

STEP 6

OPEN THE LID OF THE PHONESOAP AND THREAD YOUR PHONE CABLE THROUGH THE SLOT UNTIL YOU SEE IT COME THROUGH THE OPENING ON THE INSIDE. YOU MAY NOW PLUG IN YOUR PHONE AND CLOSE THE LID TO CLEAN YOUR PHONE AT THE SAME TIME IT CHARGES.

STEP 7

ONCE YOU CLOSE THE LID, THE CLEANING PROCESS WILL BEGIN AUTOMATICALLY. THE LIGHTENING BOLT ON TOP OF THE UNIT WILL GLOW BLUE WHILE THE UV LIGHTS ARE KILLING GERMS AND AUTOMATICALLY SHUT OFF AFTER 10 MINUTES.
